NEWS RELEASE

Jackpot licenses e-tables

VANCOUVER, BRITISH COLUMBIA. May 31, 2016 – **Jackpot Digital Inc.** (formerly Las Vegas From Home.com Entertainment Inc.) (the “Company” or “Jackpot”) (TSX-V: JP) (US OTC Pink: JPOTF) (Frankfurt & Berlin Exchanges: LVH). Jackpot is pleased to announce that it has installed two of its electronic poker tables at the River Casino in Milford, New Hampshire (<http://www.theRivercasino.com>). After gaining product approval from the Racing and Charitable Gaming Division of New Hampshire, the first two tables went live on May 19th, 2016. Plans are underway for Jackpot to provide for additional installations of its PokerPro tables with various licensed operators throughout the state. Jackpot’s electronic Poker tables will enable licensed operators the opportunity to run their current Poker operations more profitably and at the same time create attractive opportunities to open additional venues in cities where the option to do so prior was not economically feasible.

The deployment marked the first installation for a new customer of the Company since its acquisition of the PokerTek electronic table business, and the Company expects strong additional growth for its e-poker product in that regional market.

President & CEO Mr. Jake Kalpakian states “Since the acquisition, we have successfully transitioned the business and are fully operational and now in the position to deliver more product to a variety of new customers. The Company is working on several regional transactions that should generate strong growth and give us a growing North American footprint. Furthermore, we are very excited about the development of our second generation product which we intend to launch in the latter part of the year and which should attract industry wide attention due to its many innovative features”.

About Jackpot Digital Inc. (formerly Las Vegas From Home.com Entertainment Inc.)

Since 1999, Jackpot has been a reputable provider of innovative gaming software offering a multitude of multiplayer games, including poker and casino, and is committed to bringing an enjoyable experience to players and delivering great results to operators. Our lengthy track record in gaming software development, financial accountability, and cardroom operations have made us one of the leading software developers in the industry.

For more information on the Company, please contact Jake H. Kalpakian, President, at (604) 681-0204 ext 6105, or visit the Company's website at www.jackpotdigital.com.

On behalf of the Board of
Jackpot Digital Inc.

“Jake H. Kalpakian”
